

NORDVEST UK FIXED FRAME

The Nordvest Fixed Frame Window is as the name suggests, a window that cannot be opened. The glass is fixed mounted in the frame.

Frame:

56 x109mm laminated finger-jointed pine, with two outer laminates in heartwood core pine.

15mm ventilated aluminum cladding with connection grooves for mounting brackets. Total depth with aluminum cladding is 124mm.

Aluminum cladding:

Heavy-duty aluminum cladding fastened with aluminum clips. The clips are fastened with stainless screws. The cladding is delivered powder-coated in optional RAL codes.

Special colors / NCS colors or anodizing can also be supplied.

Frame mounting brackets can be supplied along with 14.5 mm mounting holes if required, or an adjufix fixing solution if desired.
